

Welcome to Erikson
Early Math iNNOVATIONS
Summer Institute Day 2!

Is there more **math** in pizza?

Still thinking about **pieces, parts & wholes**

What are the **Big Ideas** about **Fractions**?

- Fractions are equal parts of a whole.
- A whole or unit can be divided into equal parts in many different ways.
- A unit may be a single object or may be a collection of things.

Common Core State Standards for Mathematical Practice:

What can teachers do to foster them?

It's time to play games again!
