RACIAL JUSTICE IN EARLY MATH

Proposal for Working Group

* note: character limit includes spaces

1. Please enter your contact information:
   a. Full Name:
   b. Email:
   c. Phone Number:

2. What is the title of your Problem and Possibilities of Practice Working Group?

3. Please enter the name(s), email(s), and organizational affiliation(s) of the people who will lead this working group discussion.

4. Provide a summary of your session to be included in the conference program if your proposal is accepted (character limit: 650 characters).

5. Please answer the following questions to tell us about the problem or possibility of practice you plan to discuss:

   a. Provide information on the context in which this problem is taking place. Include information about the communities involved in and/or affected by the issue, any historical information that can help us understand the problem better, and any other information you judge essential to frame this problem. (character limit: 350 characters)

   b. What has been attempted to address this issue? What are some resources you are drawing from? Tell us about any outcomes and lessons learned. What are some new possibilities and potential ways of addressing this issue based on your efforts to date? Where do you need help in your thinking on this issue? (character limit: 350 characters)

   c. What are the deep questions you are grappling with? (character limit: 350 characters)

   d. Why is this a racial justice in early math issue? (character limit: 350 characters)

   e. Who benefits from the status-quo? (character limit: 350 characters)

   f. What do you hope to gain by bringing this problem to the National Meeting? (character limit: 350 characters)

6. Provide a 3 to 4 sentence positionality statement for each presenter that includes the following:

a. What is your relationship (e.g., personal, professional) to the topic?
b. How do you identify?
c. How might your multiple identities be at work during this meeting and your presentation?
d. Why are you interested in presenting this topic?

Please note that this statement will be used as a bio in the meeting's program.

7. Please describe your experience facilitating group discussions. (character limit: 350 characters)

8. How do you plan to structure the 90 minutes for this session (e.g., time for presentation, small group, whole group discussion)?
a. How will you engage the participants?
b. What tools will you use to support the working group (e.g., videos to illustrate the problem, post-its and markers; slide deck)

9. Who do you hope will attend your session? (character limit: 350 characters)

10. What type of support do you need to run a successful working group?
- Technology
- Post-it papers
- Post-it notes
- Markers
- Other:
